

5 + Adding with 5

When you think you know the facts all by heart, go to your teacher and do the Final Test on the last page.
If you get ALL right in 90 seconds, you will have
BEAT the 5+ level
You'll get a certificate!

+ 1. Flash the Math.

 2. Play the Math.

3. Work the Math.

Master facts with timed drills

IMPORTANT:

You need to **Memorize** addition facts. Try not to count on your fingers, or even in your head. Just try to memorize the facts, so you can know them quickly and automatically.

Memorize!

1. Flash the Math.

FLASH CARDS

Cut out these cards along the **solid lines**.
Fold along the **dotted lines** to make two-sided
flash cards.

Color and decorate
your flash cards.
Take your time, make
them really fancy.
Think about the
numbers as you color.
That will help you
memorize the facts.

PARKING SPOT

GAME (a flashcard game)

Imagine your flash cards are cars. Each card has its assigned parking space. The parking spaces are the numbered boxes on the next pages.

Place your flash cards answer-side down. Without looking at the answer-side, park each card in the spot with the number that you think matches the answer to that flash card.

After you fill in all the parking spots on a page, check if you got the cards in the right spot.

Remove any cards you got wrong and try again.
When you get the cards all parked in the right places, go to the next page (parking lot) and play some more.

PILED UP PARKING

Park your 2+, 3+, 4+ and 5+ flash cards here.

There will be more than just one right answer for each parking space, so put the ALL the cards that belong in the space on top of each other.

Fold this sheet neatly and evenly in half, with the printed side on the outside. Solve as many of the problems as you can in **90 seconds**. When you are done, hold the folded paper - problem side facing you - up to the light. You will see the correct answers through the paper. **Check your answers!** If you have trouble seeing through the paper, press the two halves of the paper closer together.
